

European Association of Service providers  
for Persons with Disabilities

## Letter of support

The European Association of Service Providers for Persons with Disabilities (EASPD) supports the implementation of the project “Accessible World - improving the quality of social services provided by NGOs in the field of accessibility,” carried out by the Imago Foundation from Wrocław (Poland).

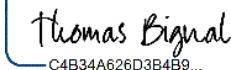

The aim of the project is to support Polish non-governmental organizations in the process of implementing activities aimed at ensuring accessibility for persons with special needs and other groups at risk of social exclusion. The issue of ensuring accessibility, in particular for persons with disabilities, is very important in the activities of EASPD members.

The European Association of Service Providers for Persons with Disabilities - the leading voice of disability services across Europe, representing over 20,000 services in over 46 different countries, is pleased to support the implementation of the above-mentioned project.
